## ABSTRACT

Joseph Daniel Alsop (Master of Science in Electrical Engineering)

An Interesting Title of a Not-So-Interesting Thesis

Directed by Dr. Fiona McLean

9 pp., Chapter 2: Samples for Tables

(76 words)

This sample thesis contains content from the “Lorem Ipsum” placeholder text. The text itself is not designed to have any meaning, but rather provide a sample of the desired formatting.

The word count of the abstract is provided automatically, but requires specific formatting to compute correctly. The automatic word count can easily be overwritten by an optional parameter to the command that typesets the abstract. Make sure you double check that the word count is correct.

### SAMPLES FOR TABLES

#### 2.1 Floating Tables

This page contains a sample table. The first table is typeset as a “float,” which is able move relative to the text. It cannot span more than one page.

Table 2.1: A Simple Table. Note that this table has some extra information added to the caption at this point in the text, but this extra text will not appear in the List of Tables.

Data 1	Data 2	Data 3
Data 4	Data 5	Data 6

#### 2.2 Long Tables

This second table is a typeset as a “longtable” and is typeset in the exact location it appear in the running text. It is able to span more than one page.
